2. To maintain the building water system and lines at no expense to BCWS.

For commercial buildings, that if the building is expanded or if any change in the use of the building or establishment increases the unit contributory loading (wastewater flow) beyond that which has hereby been approved by BCWS, I will be required to pay additional impact fees for the increased loading, based on the current impact fees.
6. For commercial buildings, I understand that each individual business establishment or each business establishment within a commercial complex must pay a separate water impact fee, have a separate water meter, and a separate water service account.
7. For commercial buildings, I understand that connections larger than 1” have to be installed and stubbed out by a contractor for BCWS to set the meter.
8. No fees will be accepted until plans are approved.
9. That the impact fee, connection fee, and inspection fee will be assessed and invoiced by BCWS Engineering. **Fees are subject to change.**
