RE: Standard Specifications for Wastewater System

This office has reviewed the wastewater system specifications submitted to this office on 04/24/2018 for consideration of becoming Standard Specifications. Based on our review this letter may serve as your approval of these Standard Specifications.

Please be advised that these Standard Specifications are only approved for those items specifically listed above. Separate "Pump Station Specifications" must be submitted with each wastewater project that includes a pump station design.

For further submittals of projects, please indicate on the application for permit to construct that your specifications have been approved as Standard Specifications and that no additional copies will be necessary.

If you have any questions, please call me at 803-898-4239.

Sincerely,

A handwritten signature in cursive script that reads "Bridget M. Clarke".
